

EST. 1991

WHO WE ARE

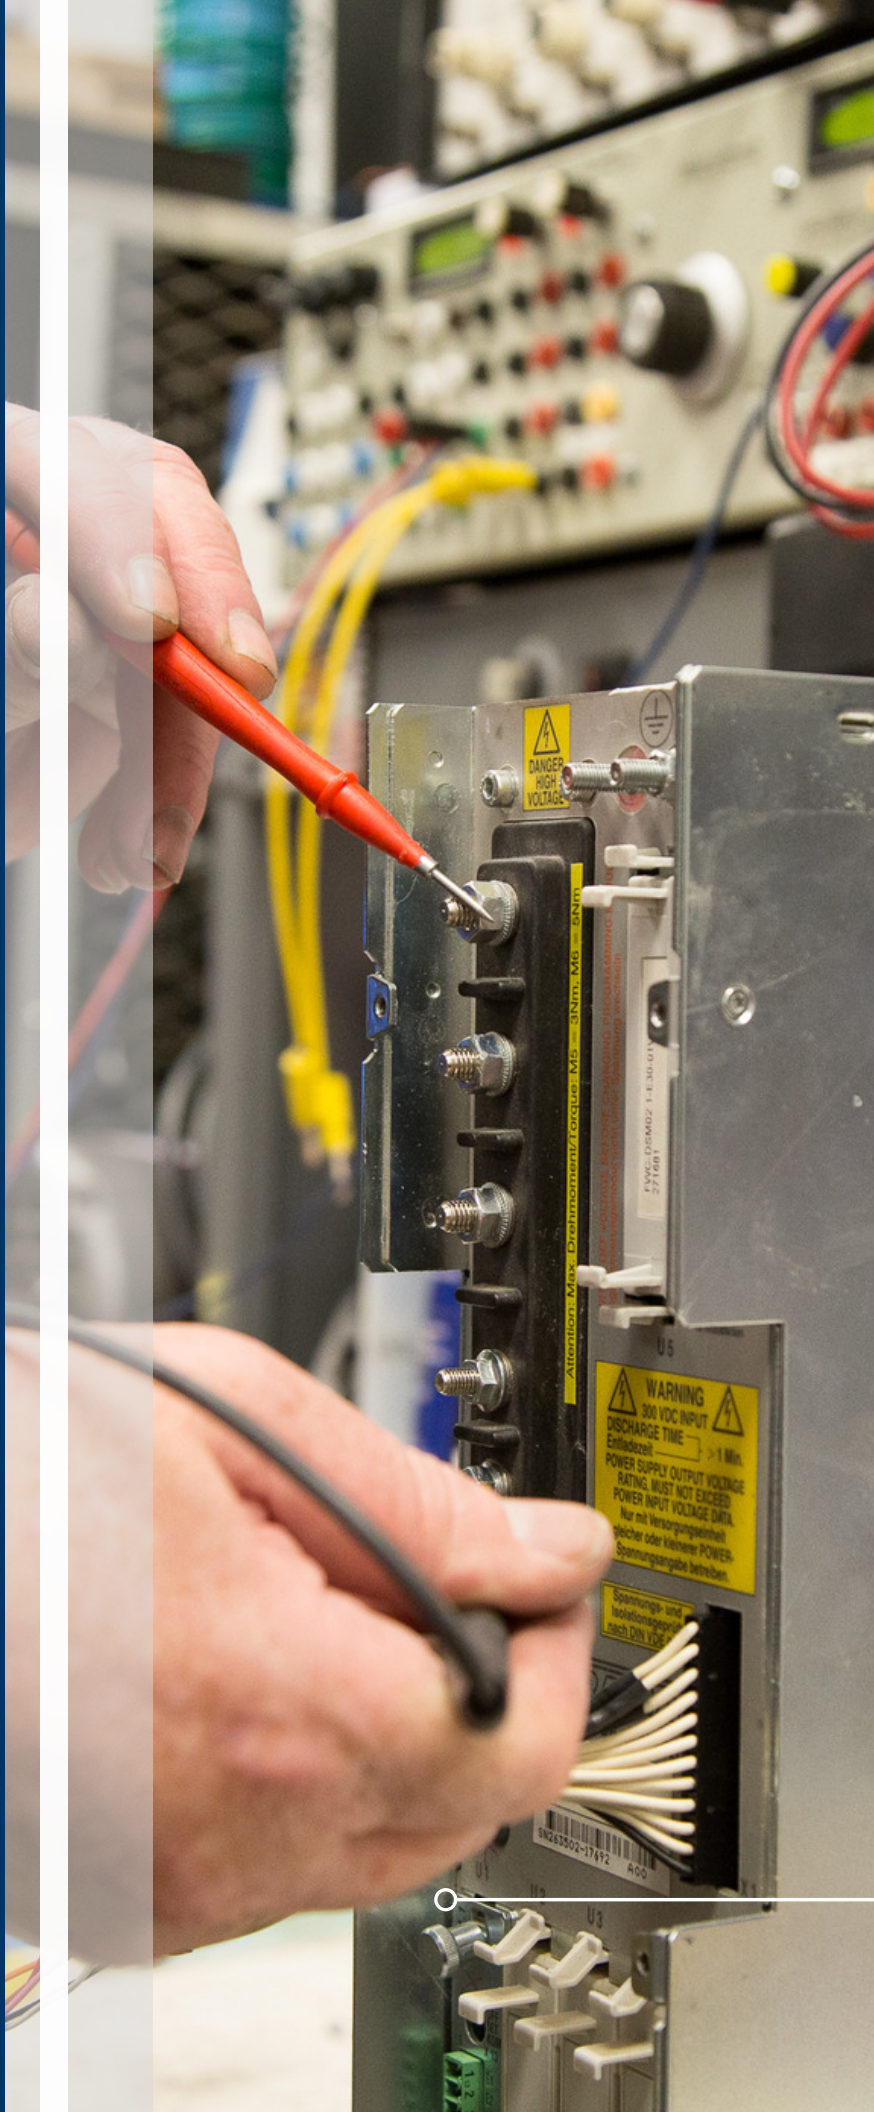

Industrial Repair Service is the leading independent repair service provider (IRSP) for industrial grade electronics within the automation, manufacturing, maritime, and energy industries.

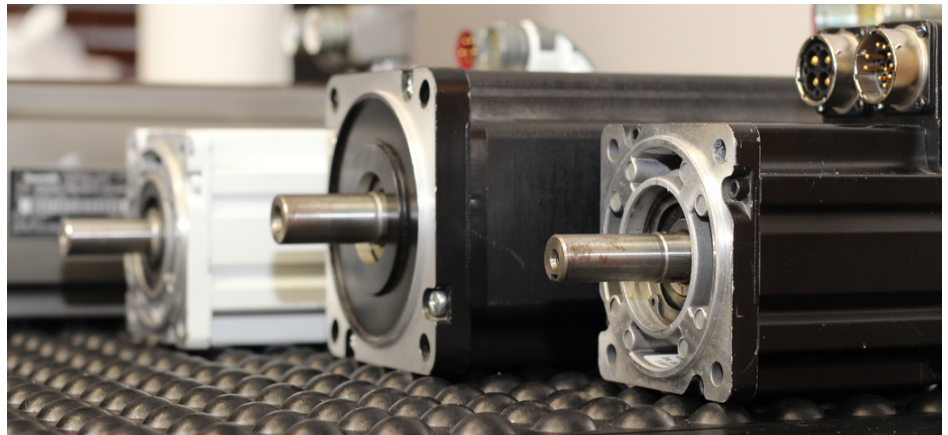

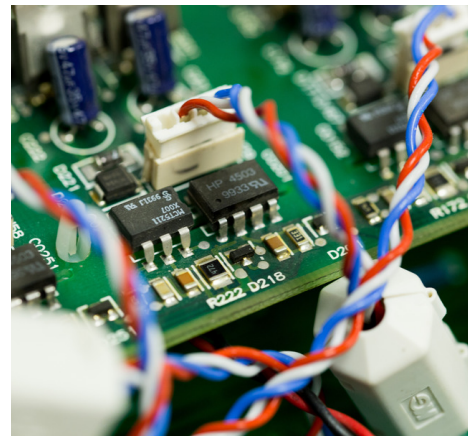

WHAT WE DO

Industrial Repair Service specializes in servicing old and obsolete equipment. Our mission is to reduce your downtime and maintenance costs.

800-950-2349

OUR WARRANTY IS OUR WORD

We offer two industry-leading warranties! All Robot, Servo Motor, and Valve repairs are covered by an 18 Month In-Service Warranty. All Electronic repairs are covered by a 24 Month In-Service Warranty.

What does In-Service mean? Our warranty starts when the part or unit is installed in your machine and not when it is shipped back to you like other repair companies. By offering an In-Service Warranty, we are giving our customers the peace of mind that the part or unit will work as intended when needed. Each warranty covers the entire unit and not just the parts we repaired or replaced.

OUR EXPERTISE

AC Drives
AC Inverters
Actuators
Card Racks
Chart Recorders
Circuit Boards
Circuit Breakers
Clutch Controls
Controllers
Control Modules
Converters
Counters
DC Drives
Displays
